Expression of concern for 'Plasmonic photothermal cancer therapy with gold nanorods/reduced graphene oxide core/shell nanocomposites' by Kostiantyn Turcheniuk et al., *RSC Adv.*, 2016, 6, 1600–1610, <https://doi.org/10.1039/C5RA24662H>.

The Royal Society of Chemistry is publishing this expression of concern in order to alert readers that concerns have been raised regarding the reliability of the data. The Royal Society of Chemistry has asked the University of Lille to investigate this matter. An expression of concern will continue to be associated with the article until we receive conclusive evidence regarding the reliability of the reported data.
