Correction: Iron isotopic composition of blood serum in anemia of chronic kidney disease

Yulia Anoshkina,^a Marta Costas-Rodríguez,^a Marijn Speeckaert,^b Wim Van Biesen,^b Joris Delanghe^c and Frank Vanhaecke*^a

Correction for 'Iron isotopic composition of blood serum in anemia of chronic kidney disease' by Yulia Anoshkina *et al.*, *Metallomics*, 2017, DOI: 10.1039/c7mt00021a.

The original manuscript contained an error in eqn (3). The corrected equation is given below.

$$\delta^{56}\text{Fe} = -1.81 (\pm 0.23) - 0.026 (\pm 0.005) \cdot \text{TSAT} + 0.24 (\pm 0.07) \cdot \text{sTfR} - 0.001 (\pm 0.000) \cdot \text{Fer}$$

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
