Correction for 'Direct determination of 3-chloro-1,2-propanediol esters in beef flavoring products by ultra-performance liquid chromatography tandem quadrupole mass spectrometry' by Qingqing Chai *et al.*, *RSC Adv.*, 2016, **6**, 113576–113582.

The authors regret that the *m*/*z* values reported for the 'precursor ion' (column 5) and 'product ion' (column 6) of both 1-OL and 1-St are incorrect in Table 1 of the original article. The correct *m*/*z* values are included herein and these typographical errors do not affect the remaining data in Table 1 or the conclusions.

Compound	Precursor ion [M + NH_4] (*m*/*z*)	Product ion (*m*/*z*)
1-OL	392.29	265.26
1-St	394.24	267.24

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
