Correction for 'Characterization of an exopolysaccharide from probiont *Enterobacter faecalis* MSI12 and its effect on the disruption of *Candida albicans* biofilm' by G. Seghal Kiran *et al.*, *RSC Adv.*, 2015, **5**, 71573–71585.

An incorrect version of Fig. 9 (and the graphical abstract) and 10 was published. The corrected versions are shown below.

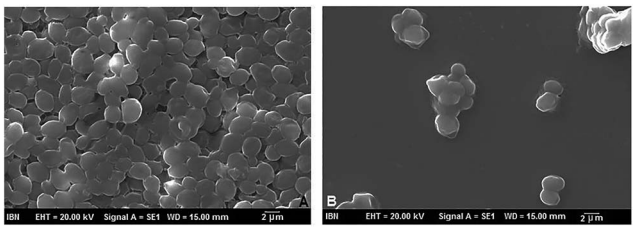

Fig. 9 Scanning electron microscope images showing antibiofilm potential of MSI12-EPS on *C. albicans*. (A) Control biofilm and (B) disrupted by EPS.

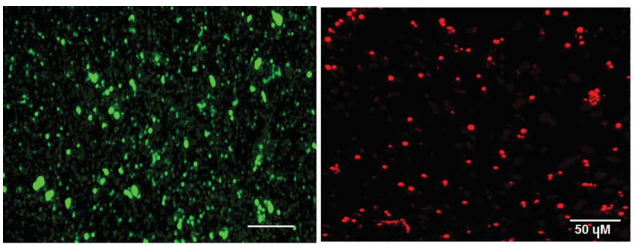

Fig. 10 CLSM analysis with BacLight Live/Dead stain. A. Control biofilms of *C. albicans*. B. EPS treated biofilms stained using Bac/light kit. Based on this analysis the red colour staining shows the EPS effectively kills the *C. albicans* cells.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
