Correction for 'One fold, two functions: cytochrome P460 and cytochrome c'- β from the methanotroph *Methylococcus capsulatus* (Bath)' by Hannah R. Adams *et al.*, *Chem. Sci.*, 2019, **10**, 3031–3041.

The authors regret that there was an error in the following sentence of the conclusions in this manuscript:

"Phylogenetic analysis of the occurrence of these two proteins suggests an evolutionary path such that the cyt cp-β (*CytL* gene) proteins evolved from the cyts P460 (*CytS*) gene, likely in response to the need to capture excess nitric oxide."

The correct sentence should read as follows:

"Phylogenetic analysis of the occurrence of these two proteins suggests an evolutionary path such that the cyt cp- β (*CytS* gene) proteins evolved from the cyts P460 (*CytL* gene), likely in response to the need to capture excess nitric oxide."

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
