Retraction of 'Cell membrane based biomimetic nanocomposites for targeted therapy of drug resistant EGFR-mutated lung cancer' by Pengying Wu *et al.*, *Nanoscale*, 2019, **11**, 19520–19528, <https://doi.org/10.1039/C9NR05791A>.

We, the named authors, hereby wholly retract this *Nanoscale* article due to errors in the labelling and filing of the data, which have led to ambiguity over the correct data for each figure.

In Fig. 4a there is partial overlap between the panel for B16 CCNPs and the panel for Hcc827 CCNPs.

In Fig. 5c there is partial overlap between the panel for D + I and the panel for DI-NPs.

In Fig. 6d on the bottom row for Ki67 immunofluorescence in tumor sections, the panels for Icot and I-NPs are identical.

In Fig. 7b there is partial overlap between the panels for spleen Dox and spleen Icot, and between the panels for lung D-NPs and lung I-NPs.

In Fig. 7c there is partial overlap between the panels for Icot, D-NPs and DI-NPs, and between the panels for PBS and I-NPs and MDI.

The original data are available and support the conclusion. The authors apologize for any inconvenience to readers.

Signed: Pengying Wu, Dongtao Yin, Jiaming Liu, Huige Zhou, Mengyu Guo, Jing Liu, Yang Liu, Xiaobing Wang, Ying Liu and Chunying Chen
