The authors regret that the units of the concentration in Tables 7, 8, 9, 10, 11 and 12 were not correctly given in the original article. In Tables 7 and 8, the tolerance limit should be given in $\mu\text{g L}^{-1}$. In Tables 9, 10, 11, and 12 the found concentration should be given in $\mu\text{g L}^{-1}$. The corrected versions of the tables are shown below.
