We would like to take this opportunity to thank all of *Chemical Science's* reviewers, and in particular highlight the Outstanding Reviewers for the journal in 2021, as selected by the editorial team for their significant contribution to *Chemical Science*. We announce our Outstanding Reviewers annually and each receives a certificate to give recognition for their contribution.

Our list includes reviewers who provided a much higher than average number of excellent quality reports. However, we recognize that this is not the only important measure, so we are also highlighting reviewers who provided extraordinarily detailed reports, reviewers who were particularly noted for constructively helping authors to improve their manuscripts, and reviewers who provided noteworthy and thoughtful adjudicative reports as well. By widening our selection criteria, our aim is to provide a more diverse and representative sample of our reviewer community.

Celebrating the diversity and recognizing the efforts of our reviewer community is incredibly important. That is why, in addition to our yearly Outstanding Reviewer editorial, we also highlight a selection of reviewers each month in our new Reviewer Spotlight blog. Find out more at <https://blogs.rsc.org/sc/category/reviewer-spotlight/> and keep an eye out on social media for our next spotlighted reviewer!
