Correction for 'Selenium-driven enhancement of synergistic cancer chemo-/radiotherapy by targeting nanotherapeutics' by Xinxin Liu *et al.*, *Biomater. Sci.*, 2021, **9**, 4691–4700, https://doi.org/10.1039/d1bm00348h.

The authors regret that the incorrect images were used in Fig. 1G (N_2 adsorption–desorption isotherm) and in Fig. 2D (clonogenic assay of HeLa cells) in the original version of the manuscript. The corrected Fig. 1G and 2D are shown below.

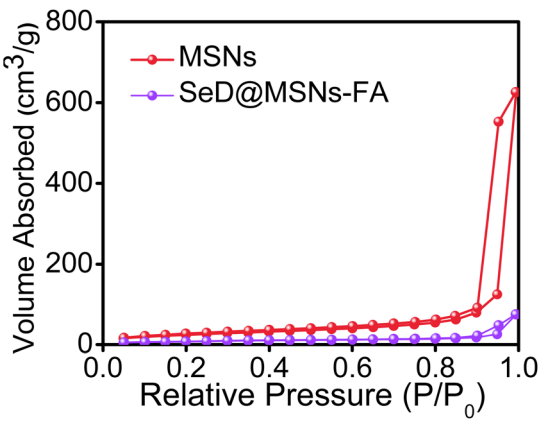

Fig. 1 (G) N_2 adsorption–desorption isotherm.

[a]*Department of Neurology and Stroke Center of The First Affiliated Hospital, and Department of Chemistry, Jinan University, Guangzhou 510632, China. E-mail: hlz6371@jnu.edu.cn, tchentf@jnu.edu.cn*

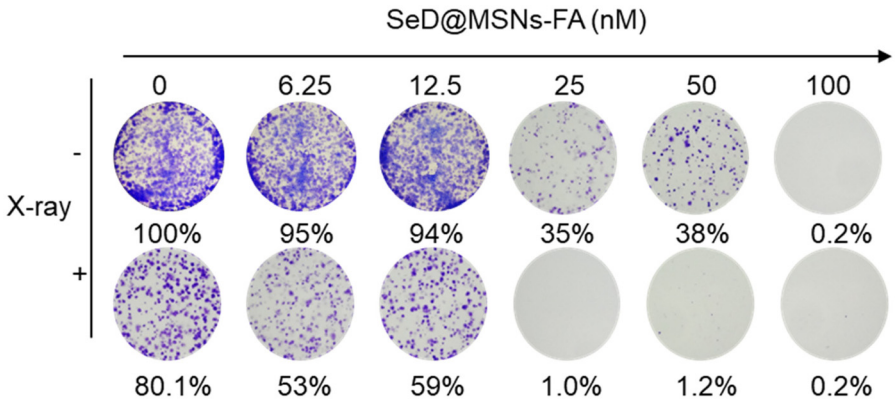

Fig. 2 (D) HeLa cells were cultured in 6-well plates with specific concentrations of SeD@MSNs-FA and radiation (2 Gy), and a clonogenic assay was performed over 8 days.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
