High impact, critical reviews in natural product research and related areas

[rsc.li/npr](https://rsc.li/npr)

The Royal Society of Chemistry is the world's leading chemistry community. Through our high impact journals and publications we connect the world with the chemical sciences and invest the profits back into the chemistry community.

# Natural Product Reports

[rsc.li/npr](http://rsc.li/npr)

*Natural Product Reports* is a critical review journal that stimulates progress in all areas of natural products research, including isolation, structural and stereochemical determination, biosynthesis, biological activity and synthesis. The scope of the journal is very broad, and many reviews discuss the role of natural products in the wider bioorganic, bioorganic and chemical biology communities.
