Correction for 'Ionic supramolecular polymerization of water-soluble porphyrins: balancing ionic attraction and steric repulsion to govern stacking' by Chisako Kanzaki *et al.*, *RSC Adv.*, 2022, **12**, 30670–30681, https://doi.org/10.1039/D2RA05542B.

The authors regret that an incorrect version of Fig. 1 was included in the original article. The correct version of Fig. 1 is presented below.

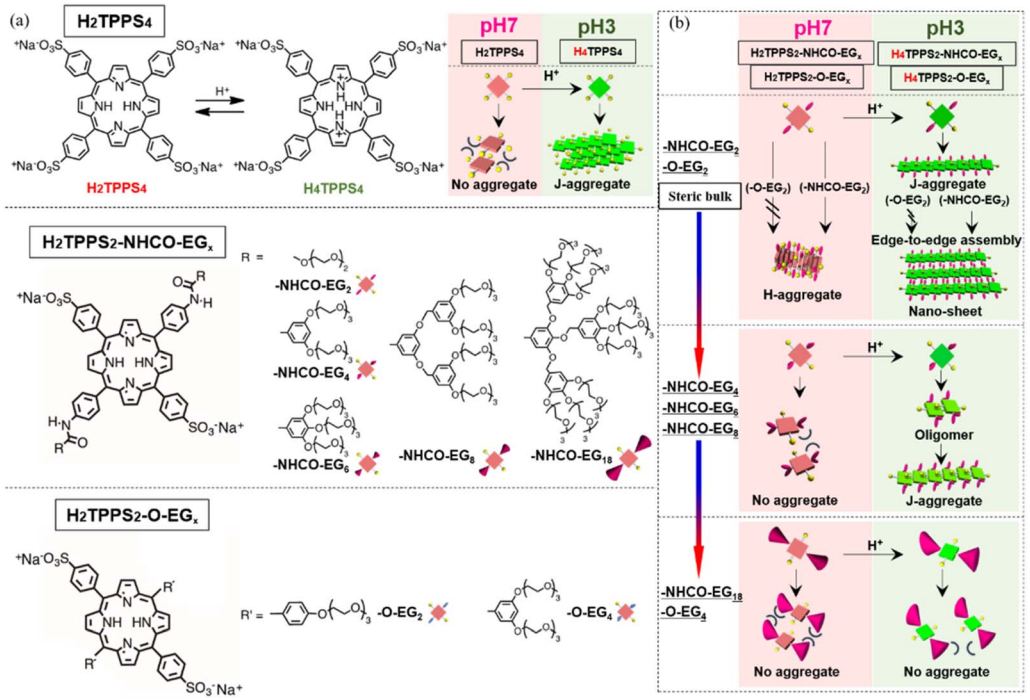

Fig. 1 (a) Molecular structures of H_2TPPS_4, H_2TPPS_2-NHCO-EG_x ($x = 2, 4, 6, 8, 18$), and H_2TPPS_2-O-EG_x ($x = 2, 4$); the DFT-calculated structures of the H_2TPPS_2-NHCO-EG_x ($x = 2, 4, 6, 8, 18$) and H_2TPPS_2-O-EG_x ($x = 2, 4$) derivatives are provided in the ESI (Fig. S18). (b) Schematic representation of EG unit dependent supramolecular polymerization toward H- and J-aggregates. Synthetic procedures and spectral data for these porphyrins are available in the ESI.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
