Correction: Synthesis and anticancer evaluation of [D-Ala]-nocardiotide A

Rani Maharani,*[abc] Muhamad Imam Muhajir,[a] Jelang Muhammad Dirgantara,[ad] Ari Hardianto,[a] Tri Mayanti,[ac] Desi Harneti,[ac] Nurlelasari,[ac] Kindi Farabi,[abc] Ace Tatang Hidayat,[abc] Unang Supratman[abc] and Teruna Siahaan*[e]

Correction for 'Synthesis and anticancer evaluation of [D-Ala]-nocardiotide A' by Rani Maharani *et al.*, *RSC Adv.*, 2024, **14**, 4097–4104, https://doi.org/10.1039/D4RA00025K.

The authors regret that there was an error in the presentation of the units in Fig. 5 in the original article. The correct version of Fig. 5 is presented below.

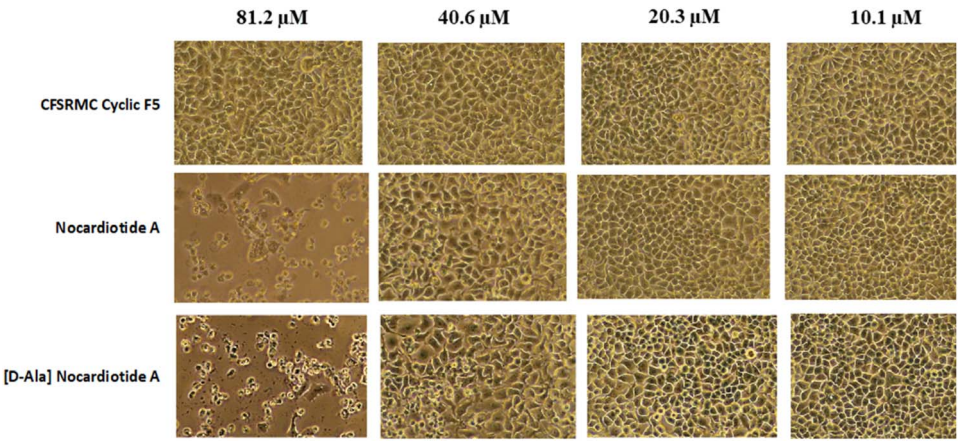

Fig. 5 The effect of the concentrations of nocardiotide A, [D-Ala]-nocardiotide A, and CFSRMC cyclic F5 on the morphology of cervical cancer HeLa cells. Both nocardiotide A and [D-Ala]-nocardiotide A completely disrupted the monolayer integrity of HeLa cells at a concentration of 62.50 µg mL^{-1}, while CFSRMC cyclic F5 as a negative control did not disrupt the monolayer integrity of HeLa cells.

The Royal Society of Chemistry apologises for these errors and any consequent inconvenience to authors and readers.
