Outstanding Reviewers for *Chemical Science* in 2023

We would like to take this opportunity to thank all of *Chemical Science*'s reviewers for helping to preserve quality and integrity in chemical science literature. We would also like to highlight the Outstanding Reviewers for *Chemical Science* in 2023.

DOI: 10.1039/d4sc90147a

rsc.li/chemical-science

Each one of our outstanding peer reviewers has been carefully selected by our editorial team and includes active researchers who have made significant contributions to peer review and have gone above and beyond in their actions.

As well as selecting reviewers who have provided a higher-than-average number of top-quality reviewer reports, we have also chosen to highlight those reviewers who have provided highly detailed reports and provided constructive feedback, as well as those adjudicative reviewers who have provided thoughtful and robust reports for manuscripts that have initially received conflicting recommendations.

In addition to our list of Outstanding Reviewers for *Chemical Science*, we are highlighting our superb reviewer community year-round in our Reviewer Spotlight blog, which highlights a selection of reviewers every month. You can read our Reviewer Spotlight blog at <https://blogs.rsc.org/sc/category/reviewer-spotlight/> and do keep an eye on our journal Twitter/X account @ChemicalScience to see which reviewers we will be promoting each month.

We would also like to thank the *Chemical Science* Editorial Board and Advisory Board and the chemical sciences community for their continued support of the journal, as authors, reviewers and readers.

We continue to work on improving the diversity of our reviewer pool to reflect the diversity of the communities that we serve.

May Copsey, Executive Editor
